

ASSORTMENT

TRITON Ltd. is a family-run export business which was established in 1975. From the very beginning, the company specialized in gourmet seafood, such as Lumpfish Caviar, Capelin Caviar, Cod Liver (Foie de Morue) and Cod Liver Pâté (also called "Foie Gras of the Sea"), Cod Roes, and a wide array of seafood spreads.

Over the years, the range of products expanded, and today TRITON is a very brisk exporter of all main groups of Icelandic fish and fish products. They include Masago (to go with Sushi), Tobikko, and a new product, Canned Female Capelin with Delicious Roes, now for the first time as a fully preserved item.

The clean and unpolluted waters around Iceland secure that only the finest raw materials are chosen for our seafood, and the most stringent quality assurance systems are applied to every stage of production.

We are proud to say that we have a solid reputation amongst our numerous customers all over the world for highest product quality, a friendly, personal business approach and reliable services.

*Ormur J. Arnarson, Director
TRITON LTD.*
